

DF62W Series

# Water Resistant, Slim In-line Connector for Internal Wiring

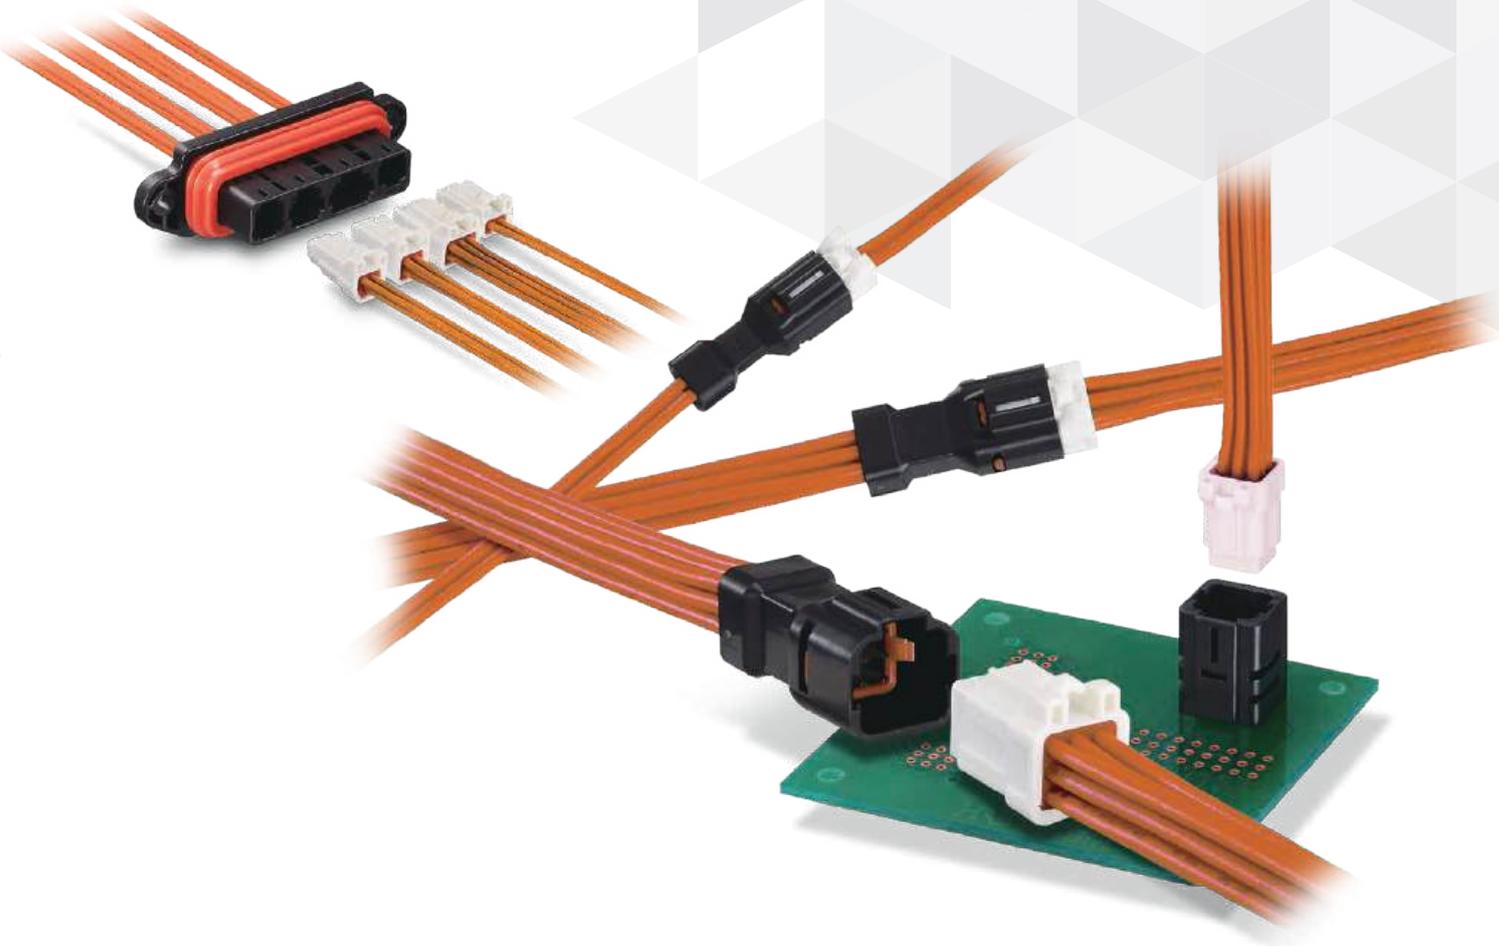

Positive-Lock

Waterproof

Slim In-Line

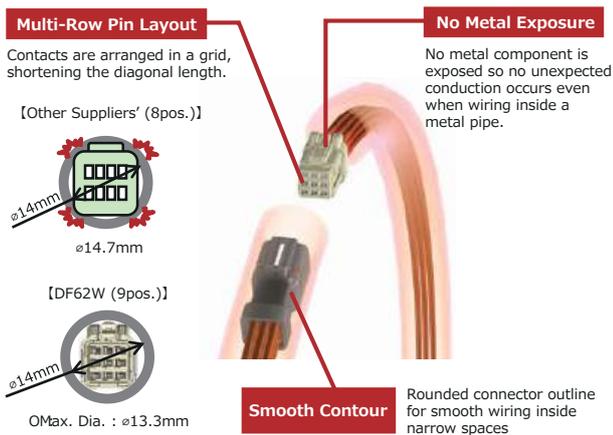

Oct.1.2025 Copyright 2025 HIROSE ELECTRIC CO., LTD. All Rights Reserved.

## Features

### 1. The slim, sleek design and smooth contour combine to complete connections in tight spaces.

These connectors were designed to take full advantage of small/ narrow spaces. The contacts are arranged in a grid pattern which shortens the diagonal distances and the body was slimmed down by creating smooth outer surfaces. This design helps to save precious space and makes these connectors virtually tangle free. There is no visible or exposed metal which eliminates the possibility of electrical arcing between the connector and the inside of a metal conduit.

### 2. Secure Lock Mechanism

The friction lock emits a clear tactile click upon lock completion. The design prevents incomplete mating and connector disconnection. The socket lock can be visually checked through the plug window after mating.

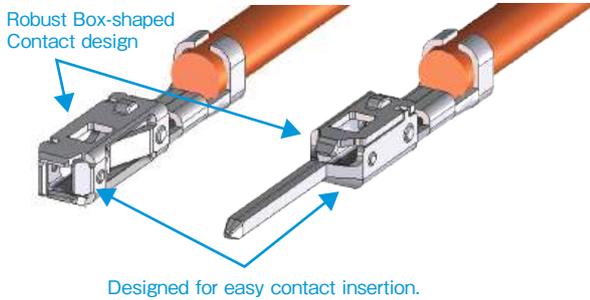

### 3. Reliable Contact Design

Two-point contact design that maintains contact reliability.

## 4. Robust Contact Design

The unique design protects the contacts and lance areas. It prevents any bending or deformity that might occur during mating, assembly or transportation.

(Waterproof type (DF62W))

## 5. Multiple Variations Available

Several product variation are available so designers can choose the one most suited to their application. Compatible with a wide range of cable sizes and available in in-line and pin header types.

## 6. Applicator Sharing

DF62W is compatible with the DF11, DF59 and DF62 Series applicators by exchanging the parts.

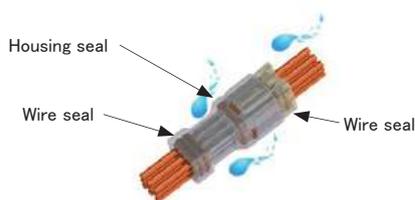

Note 1: DF62W requires a dedicated die and hand tool.

Note 2: Some products are not compatible. Please contact Hirose for additional details.

## 7. Condensation Prevention

IP67 level water-resistance in mated condition.

IP67 waterproof equivalent under specific conditions. Please contact a Hirose representative for detailed specifications and conditions.

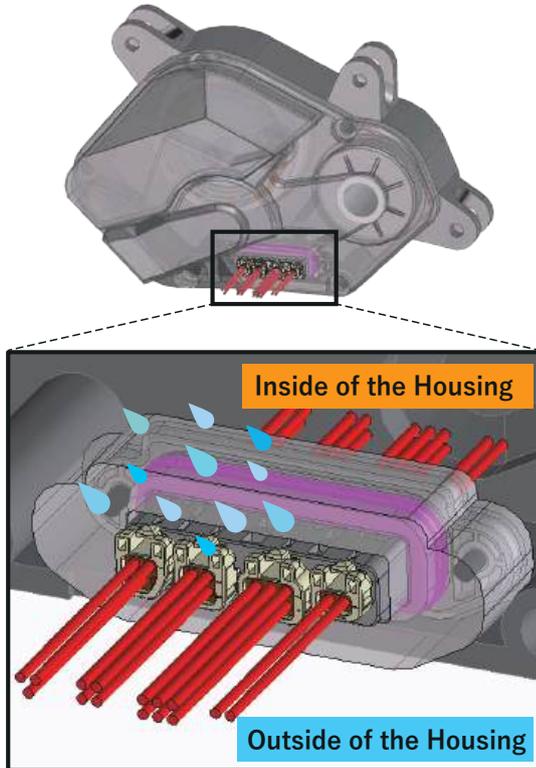

## 8. Panel Waterproof Type

A panel waterproof type combining 2, 3, 4, and 6pos. is also available. IP67 level waterproofing prevents water immersion from outside the housing.

Note: The inside of the housing is not waterproof.

[Example] E-Bike Drive Unit

## Product Specifications

Rated Current (Note 1)	No of Pos.	20 AWG	22 AWG	24 AWG	26 AWG	Operating Temperature (Note 2)	-40 to +105°C
	2	5A/pin	4A/pin	3.5A/pin	3A/pin	Storage Temperature Range (Note 4)	-10 to +60°C
	3	3.5A/pin	3A/pin	2A/pin	1A/pin	Operating Humidity Range (Note 3)	20 to 80%
	4	3.5A/pin	3A/pin	2A/pin	1A/pin	Storage Humidity Range (Note 4)	40 to 70%
	6	3.5A/pin	3A/pin	2A/pin	1A/pin		
	9	3.5A/pin	3A/pin	2A/pin	1A/pin		
Rated Voltage	250V AC/DC						

UL	Rated Voltage	29.9V AC/DC	Operating Temperature (Note 2)	-40 to +75°C
----	---------------	-------------	--------------------------------	--------------

C-UL	Rated Voltage	29.9V AC/DC	Operating Temperature (Note 2)	-40 to +75°C
------	---------------	-------------	--------------------------------	--------------

UL, C-UL File Name

UL: E52653

C-UL: E52653

Items	Specifications	Conditions
Insulation Resistance	1000M $\Omega$ Min.	500V DC
Withstanding Voltage	No flashover or insulation breakdown	650V AC for 1 min.
Contact Resistance	30m $\Omega$ Max.	20mV Max., 1mA (DC or 1000Hz)
Vibration Resistance	No electrical discontinuity of 1 $\mu$ s.	10 cycles in each of three directions at frequency 10 to 55Hz, half amplitude 0.75mm
Shock Resistance	No electrical discontinuity of 1 $\mu$ s.	Accelerated velocity: 490 m/s <sup>2</sup> for 11ms, half-sine wave in 3 directions, 3 times for each direction
Humidity Resistance	Contact Resistance: 30m $\Omega$ Max. Insulation Resistance: 1000M $\Omega$ Min.	96 hours at temperature of +40 $\pm$ 2°C and humidity of 90 to 95%
Temperature Cycles	Contact Resistance: 30m $\Omega$ Max. Insulation Resistance: 1000M $\Omega$ Min.	-55°C : 30 minutes $\rightarrow$ 5 to 35°C : 2 to 3 minutes $\rightarrow$ 85°C : 30 minutes $\rightarrow$ 5 to 35°C : 2 to 3 minutes, 5 cycles
Mating Durability	Contact Resistance: 30m $\Omega$ Max.	Tin plating: 30 times Gold plating: 50 times
Solder Heat Resistance	No deformation in appearance or significant damage to contacts.	Flow: 260°C , 10sec. Hand soldering: temperature of soldering iron at 300°C for 3sec.

Note 1: This is the maximum current rating while all pins are powered or used as all power lines.

When isolating power lines into multiple circuits, current ratings may go above the stated current ratings. Please consult Hirose for details before doing this.

Note 2: The connector should be completely dry (no condensation present)

Note 3: Information contained in this catalog represents general requirements for this Series.

Contact us for the drawings and specifications for a specific part number shown.

Note 4: Applicable to unused items in packed condition.

Note 5: The panel waterproof type is not UL/C-UL certified.

## Materials / Finish

Item	Component	Material	Finish	UL Flame Retardant Grade	RoHS2
Socket Crimp Contact	Contact	Phosphorous Bronze	Gold Plating or Tin Plating	-	Yes
Plug Crimp Contact				-	
Crimp Socket	Insulator	PBT	White	UL94V-0	
Crimp Plug			Black		
Crimp Socket	Seal	Silicone Rubber	Bengala or Gray	-	
Crimp Plug				-	
Header	Insulator	PBT	Black	UL94V-0	
	Contact	Copper Alloy	Gold Plating or Tin Plating	-	
	Retention Tab	Brass	Tin Plating	-	
	Seal	Silicone Rubber	Bengala	-	

## Product Number Structure

Refer to the chart below when determining the product specifications from the product number.  
Please select from the product numbers listed in this catalog when placing orders.

Note : The waterproof type (DF62W Series) and non-waterproof type (DF62 Series) are not interchangeable.

### ● Connector (In-line)

**DF62W** # - # **S** - **2.2** **C**

①      ②      ③ ④      ⑤      ⑥

① Series Name	DF62W	④ Connector Type	S: Socket EP: In-line Plug
② Shape Type	None: Regular Type C: Thin Cable Type P: Panel Waterproof Type	⑤ Contact Pitch	2.2mm
		⑥ Termination Type	C: Crimp Housing
③ No. of Pos.	2, 3, 4, 6, 9		

### ● Connector (DIP)

**DF62WZ** - # **P** - **2.2** **DSA** (**##**)

Note 1 : Issues with non-Hirose specified tools are outside the scope of warranty.

Note 2 : Applicator manufactured by JAPAN AUTOMATIC MACHINE(J.A.M.).

Please contact J.A.M. via the URL below regarding inquiries on the applicator or crimp defects.

(URL : <http://www.jam-net.co.jp>)

Note 3 : Please conduct crimping work according to the "Crimping Quality Standard" and "Crimping Condition Table".

Note 4 : The compatible wire is limited to UL3443 (20 AWG) or UL1007 (22 AWG).

Note 5 : The compatible wire is limited to UL1007 (22 to 24 AWG) or UL1430 (24 to 26 AWG).

Note 6 : When using non-Hirose specified tools,

please consult with a Hirose sales representative regarding requests for the tool die drawing.

## Crimping

### ■ Items Required Prior to Starting

The work-related documents listed below are required before starting harness assembly.

(The ● mark indicates a required document.)

When the documents shown below are not available, ask a Hirose sales personnel to provide them.

Document Title	Description	Automatic Crimping Machine	Hand Crimping Tool	Remarks
(1) Main Unit of Crimping Machine Instruction Manual	Explanation of main press machine unit	●	-	Bundled with the purchase of the main press machine unit.
(2) Applicator Spare Parts Identification	Explanation for Applicator installation	●	-	Bundled with the purchase of applicator.
(3) Crimp Conditions	Standard values of : Crimp height, tensile strength	●	-	
(4) Crimp Quality Standards	Various standards for crimping conditions	●	-	
(5) Operating Instructions for Hand Tool	Inspection items of : Crimp height, tensile strength, other	-	●	Bundled with the purchase of hand tool.
(6) DF62W Series Cable Assembly	Cable assembly procedure	●	●	Please refer to our website.

### ■ Tools

Use tools designated by Hirose when crimping.

- Crimping performed using tools other than those specified is outside the scope of warranty.
- The operating instructions manual is available for the crimping machine and the applicator. Be sure to carefully read the operating instructions manual before implementing the work.

### ■ Applicable Electric Wires

Refer to Crimp Condition Table when using cables other than applicable wire. Crimp Condition Table is available from Part No. link.

(If you are using a cable that is not listed in Crimp Condition Table, please contact a Hirose sales representative.)

[Precautions]

- Electric wires that are suitable for crimping connectors are tin-plated stranded soft copper wire.
- Avoid crimping solid wires, wires with polyester threads or tin-coated wires.
- Avoid crimping two electric wires together.
- The crimp height setting value (Note) may vary between tin-plated and gold-plated contacts even if the same electric wires are used.
- The crimp height setting value (Note) may vary depending on the difference in the core wire configuration even if the computed cross-sectional area is the same.

Note : The crimp height is an important item that determines crimping quality. We execute crimping tests for each electric wire to ensure the optimal value for the crimp height with high precision, thereby ensuring optimal setup values.

## Precautions

1.Cleaning Conditions	Please refer to the "Wire-to-Board Connector Guide ". Cleaning with IPA is allowed. (Other cleaning agents are not recommended due to the fact that it may change the push/pull feeling. Please contact us when you use other cleaning agents.)
2.Important Notes	<ol style="list-style-type: none"> <li>1. Caution is required for mating and un-mating the connector without it being mounting on a PCB. Doing so can damage or deform the contacts.</li> <li>2. During hand soldering, do not apply excess amounts of flux which can migrate onto the connector.</li> <li>3. This product may have a slight differences in color depending on the production lot. This difference does not have any influence on the performance.</li> <li>4. Black spots may appear on the mold resin but this does not affect the product quality.</li> </ol>
3.Handling Instructions	Please refer to the materials listed below on our company website when handling this product. <ul style="list-style-type: none"> <li>■ Product Guidelines (Board-to-Wire Connector Guidelines)</li> <li>■ Product Guidelines (Mating/Unmating Operation Instruction Manual)</li> <li>■ Cable Assembly Instruction</li> <li>■ Crimp Quality Standard</li> </ul>

## While Taking into Consideration

Specifications mentioned in this catalog are reference values.

When considering to order or use this product, please review the Drawing and Product Specifications sheets.

Use an appropriate cable when using the connector in combination with cables.

If considering usage of a non-specified cable, please contact your sales representative.

If assembly process is done by jigs & tools which are not identified by Hirose, the warranty of the product may be affected.

If considering usage for below mentioned applications, please contact your sales representative.

In cases where the application will demand a high level of reliability, such as automotive, medical instruments, public infrastructure, aerospace/ defense etc. Hirose must review before assurance of reliability can be given.
